Built With Care.

Brilliant finishes that meet the industry's highest standards.

Deluxe Finishes

These incredibly durable finishes are engineered to never chip, flake, crack, discolor or tarnish by using a combination of thick electroplated layers, high temperature enamels and cutting edge clear-coat technology. Performance testing data is available upon request.

Sil-Ray™

Heavy silver tone electroplated layers combined with our extremely hard protective coating produce a brilliant finish that will stand the test of time.

Gol-Ray™

The most durable gold finish, combining heavy electroplated layers of 24K gold with an extremely hard protective clear coat, the result is a gold finish that outshines the competition.

Two-Tone

The best of both worlds, Gol-Ray™ and Sil-Ray™ combine to form a two tone finish that is bright, durable and consistent.

Cote D'Or™

The ultimate fine gold finish, our thickest layer of 24K gold plate and our ultra durable clear coat, provides a presentation quality finish; an excellent choice for awards, gifts and display badges.

Standard Finishes

Nickel Electroplate

The most economical silver tone finish, a hard layer of nickel electroplate provides a high degree of durability without a high price, but may lose some luster with age.

Rhodium Electroplate

A bright and brilliant silver tone finish that will not tarnish; a great combination of shine and durability.

Gold Electroplate

A pure 24K gold electroplated finish applied over a nickel base provides a gold finish that is tarnish-resistant, but may show some wear over time.

All Smith & Warren badges are covered by our industry-leading Full Lifetime Warranty.

General Information

Authorized Dealers
